NEWLY ELECTED OFFICERS OF LEGION AUXILIARY UNIT ASSUME DUTIES AT MEET

PARALLEL PARKING IS ADVOCATED BY NILES CIVIC BODY

Dangers of Bottle Neck In Front of Post Office Are Discussed

A letter from the California Highway patrol relative to the dangers accruing from the bottle neck in the highway in front of the post office building was read by Secretary Petsche at the weekly luncheon meeting of the Niles Chamber of Commerce on Tuesday noon, in which it was suggested that parallel parking would be the best remedy to relieve traffic dangers at this point.

The letter also suggested that the matter could be taken up with the county surveyor for the necessary painting of parking signs, but it was brought out by one of the members present that the thoroughfare in question was not a county road, but a state highway. Another member also stated that he thought diagonal parking on a state highway was against the law, and that parallel parking should be enforced to comply with the law.

A considerable amount of discussion has revolved around the question of parking on both sides of the street in the block on Main street between "G" and "H" streets. When cars park diagonally, there is hardly room for two cars to pass abreast, rendering a great traffic hazard, both to motorists and pedestrians. Parallel parking, in the opinion of the Chamber of Commerce, would obviate this danger, and they are striving to obtain official sanction to put this into effect.

It was decided by the members present at the meeting Tuesday to negotiate with both the county and the state highway authorities to ascertain the proper procedure to be taken.

TOWNSHIP WOMAN RECEIVES POSITION AT MOUNTAIN VIEW

Miss Eva Costa, one of the most prominent and accomplished young women of Washington township, has recently been added to the teaching staff of the Mountain View High school, where she will have charge of the music department next term.

Miss Costa has just been graduated from Mills College where she majored in music. At the recital given at the college at the close of the year, she won a \$100 prize for the best musical composition rendered by the numerous students who participated in the recital. She also won the honor of being placed on the preferred list of teachers added to the Oakland staff.

Ocean Beach—Alexander Reynolds purchased Savoy Theater from Palmer Brothers and Fulkerson for consideration of approximately \$100,000.

SCENIC SPOT FOR NILES TAKING ON ROBES OF BEAUTY

Rapid Progress Reported at Chamber of Com- merce Meeting

According to reports received by members of the Niles Chamber of Commerce at their weekly luncheon meeting held Tuesday noon, rapid progress is being made on the new park and scenic spot along the strip of old pavement and unused land between the highway and the railroad right-of-way just north of Niles.

George Roeding, of the California Nursery Company, through whose efforts the park plans have been brought to such a success, notified President F. V. Jones of the chamber of commerce that a total of 168 rose bushes will in time be planted, forming a solid hedge of roses along the front of the park. Some of the roses have already been planted, together with number of shrubs, also donated by Mr. Roeding.

The Niles water department received an order from the Highway commission on Tuesday morning, authorizing water service for the park, and according to E. F. Glassbrook, manager Public Utilities California Corporation, a temporary system will probably be installed by the end of the week, to be replaced later by a sprinkler system. The sprinkler system will be installed after the beginning of the next fiscal year, when further appropriations will be available. Mr. Roeding also informed Mr. Jones that he would see that the plants and shrubs are watered until the water connections are put in.

Four or five inches of loam will be used to cover the ground in order to provide proper fertilization for the rosebushes, lawns and shrubs to be planted.

San Gabriel—Jim Moreno opened Triangle Market.

Outdoor School Holds Graduating Exercises

Approximately a half hundred spectators witnessed the closing exercises of the Williamson Outdoor school on Saturday morning, the program being presented in the lovely garden of Mr. and Mrs. J. C. Shinn, "loaned" for the occasion.

Featuring the program were two one-act plays in Spanish, "Los Tres Osos" (The Three Bears) and "En Espana." Ballet dances formed a colorful part of the program. Patriotic numbers in observance of Memorial Day were also included. Selections by the rhythm orchestra, a group of garden songs and solo dances completed the program, after which the visitors viewed an exhibit of school work and handicraft done by the pupils.

Assisting in the program were Anna Milicent Shinn, piano solo and ballet; Anna Mae Graham and Mary Inez Harold, ballet; Elsie Allen, Spanish dance; and Mrs. Lacy, of San Jose, accompanist.

Pupils of the Williamson School for 1931 are David Barker, Dorothy Fae Franklin, George Holeman, Lannes Sharman, Arthur

APRICOT CANNING TO BE COMMENCED EARLY NEXT WEEK

Schuckl Cannery Antici- pates Hiring More than 350 People Monday.

More than 350 people will be put to work next week as the result of the anticipated opening of the Schuckl Cannery, of Niles who report that operations will commence Monday on the canning of the early crop of apricots. It is expected that approximately 200 women and 150 men will be hired for a duration of three or four weeks, and perhaps longer.

The apricots to be canned during the early part of the operations are being obtained from Brentwood and the San Joaquin valley, while local cots will be used directly they are ripe enough.

A short shut down of the cannery will take place following the conclusion of the apricot canning, following which operations will commence on the canning of the peach output for the season.

The price to be paid for the crop supply could not be obtained.

Cherry Situation.

The cherry situation throughout Washington is still very acute, exceedingly low prices still prevailing. The majority of cherry growers figure it is cheaper to let the cherries remain in the trees instead of having them picked, inasmuch as the estimated cost of picking is figured at four cents a pound, and the growers are doing well if they market the crop at this price. Several growers have issued invitations to friends to help themselves gratis, while others are making the picking a "family affair," thereby doing away with the picking labor overhead. Some of the larger growers are employing help for the sole purpose of assisting the pickers, who are in dire need of work.

Country Club Has MEMORIAL DAY PROGRAM

Memorial Day was observed by members of the Country Club of Washington township at its June meeting held Tuesday afternoon, when a very large attendance was reported present to enjoy the program presented.

Patriotic music, pantomime and a one-act play were features of the program.

Those taking part in the presentation of the program were: Donald Spetti, Mrs. Franklin Brown, Mrs. George A. Coit, Mrs. W. Haley, Mrs. Frank Dusterberry, and Mrs. C. E. Anderson.

Corona—Gus Carlson purchased Corona Planing Mill.

NILES BOOTLEGGER ARRESTED IN RAID EARLY WEDNESDAY

Sale of Liquor to Minors Results In Raid by Sheriffs.

Officers of the sheriff's squad accompanied by Constable W. Ebright, of Niles, and Constable Vincent Strobel, of Hayward, swooped down on the pool hall on Main street owned by Louis Perry on Tuesday morning, arresting Perry on a charge of selling intoxicating liquor to minors, and confiscating approximately 450 gallons of wine.

Perry was taken before Judge Jacob Harder, Jr., of Hayward, for trial immediately following his arrest, found guilty, and given the alternate of a \$50 fine or 100 days in the county jail. According to reports received, Perry was unable to pay the fine, and was taken to jail.

According to reports from the Hayward police, Perry sold liquor last Thursday to two Niles minors, who in company with two boys from Alta Vista, wrecked a real estate office in the latter town, resulting in their arrest. The tip resulting in the raid yesterday morning followed from the arrest of the boys. The boys were reported to have purchased half a gallon of wine from Perry.

The raid was conducted by Deputy Sheriffs Harry Adams, Douglas Webb, and Constables W. Ebright, of Niles, and Vincent Strobel, of Hayward.

FEDERATED CLUBS ENJOY PICNIC IN CANYON

Games, races, dancing and music were features of the day.

Special provisions were made for the entertaining and feeding of the children.

Officials of the federation declared the picnic the finest held in point of attendance and enthusiasm, and many visitors attended from outside points. Nick Bauer, of Valle Vista, vice-president of the Federation, was general chairman, and was aided by many officials and members.

**MY "MAID" IS AN ELECTRIC RANGE
and she cooked this dinner for 4¢**

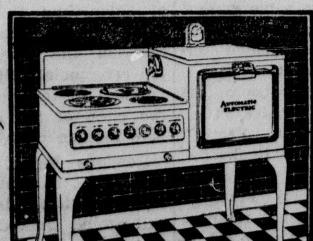

THE ELECTRIC RANGE is just like having a maid at practically no additional cost. And this "maid" doesn't eat anything; she never complains, nor asks for a raise. She cooks food perfectly for about 1¢ a meal per person. And the joy of entertaining depends so much upon having this helper in the kitchen.

The electric range cooks food automatically. You place an entire meal in the oven—in the morning if you like. At 4 o'clock when you are miles away the Electric Timer turns the electricity on and starts the meal cooking. A Thermostat keeps the oven heat just right. At 6 o'clock the Timer turns the current off. If you're late getting home, the insulated oven keeps the food hot.

And electric cooking is as clean as sunshine. Platform cooking elements are faster—as fast as you'd want them. The electric range itself costs no more than any other good range.

Come into our office or a dealer's store and see the new electric range. Then select the model you prefer. Special terms will make it easy.

NASH

Aviation demands Twin-Ignition!

NASH OWNERS CALL IT INDISPENSABLE!

Air Commerce Regulations, issued by the United States Department of Commerce, absolutely require two spark plugs per cylinder on all commercial aircraft motors of over 40 horse power.

Aviation demands perfection in power. And so two spark plugs, twin sparks, are employed in aircraft motors—to burn the gasoline more efficiently—to provide power, speed, safety and economy beyond the reach of single ignition.

For the same reasons, Nash engineers, in Nash Eight-90 and Eight-80 motors, also provide Twin Ignition.

Of course, you can get along without Twin Ignition. But here, in engineering figures, is what you are missing:

The same motor, with Twin Ignition instead of single ignition, produces 22% more power, 5 miles an hour more top speed, and 2 extra miles of travel from every gallon of gasoline.

And, the prices of these Twin-Ignitioned-motored Nash Straight Eights are no higher than the prices of other cars without this important improvement!

Matchless economy

with six-cylinder smoothness

"Better than 20 miles to the gallon." "Its cost-per-mile is the lowest of any car." "Never have to add oil between crankcase changes." "Drove from Ohio to California on a repair expense of \$1.05." "It just runs and runs and runs."

—typical comments from owners of the Chevrolet Six

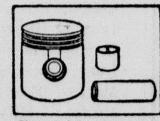

Chevrolet's 152" frame supports the body throughout its entire length

Why is it that Chevrolet—a big, powerful, smooth-running six—actually costs less to operate and maintain than any other car you can buy? The answer lies in five outstanding factors of Chevrolet economy:

1. Efficient Engine Design makes Chevrolet fuel consumption so low that 20 miles to the gallon of gasoline is nothing unusual for a Chevrolet owner.

2. Modern Chassis Design—as evidenced by Chevrolet's long heavy frame, four parallel-mounted springs, and smooth-running six-cylinder engine—increases the ability of the Chevrolet Six to run dependably, day after day.

3. Excellence of Manufacture also adds to Chevrolet dependability and long life. Chevrolet pistons, for instance, are built so carefully, and held true to such close limits of pre-

Chevrolet's pistons are built to close limits of precision

4. High-Quality Materials are used throughout the Chevrolet car—costly nickel steel, chrome-vanadium steels, chrome-nickel steels—to assure trouble-free, low-cost service for tens of thousands of miles.

5. Economical Nationwide Service, with its low flat-rate charges on labor and genuine parts, is available at 10,000 dealers throughout the country, who also offer the protection of the most liberal owner's service policy ever to back a low-priced car.

Remember—in addition to all these basic economies—Chevrolet offers the extra dollars-and-cents advantage of one of the lowest delivered prices on the market. And this cost may be spread over a period of many months by the liberal G.M.A.C. plan.

Chevrolet's Owner's Service Policy is the most liberal ever offered in connection with a low-priced car
